OCEAN Buoys R SERIES

A versatile buoy for the most adverse conditions

Rock solid ropehold with reinforced material

Simple valve for convenient inflation

Seamless construction

UV resistance

Most ribs than any other buoy in the market

Unique glossy finish

**available upon
request &
sufficient quantities*

**Suitable colour for
European Fishing Grounds**

Widely popular among commercial fishermen
for its durability but also among the recreational boats too

Suitable for

OCEAN

R Series Buoys are **heavy-duty buoys** in which the **rib-reinforced rock solid rope hold** is made in such a way to provide **extra strength and durability**. This is a versatile **commercial fishing buoy** for the most adverse conditions. Can be used as a **marking gear** for ocean, sea, river, lake, beaches, cable installation and swimming.

R Series Buoys have become widely popular among **commercial fishermen in longline fishing** for their durability and also among recreational boats.

These buoys are **one-piece made** (no parts are attached together to form the finalised buoy) with consistent wall thickness and UV resistance.

Widely popular among **commercial fishermen** for their durability and also among recreational boats

Inflation pressure: 2.1lbs/0,15bar at 68°F/20°C
Material: Plastisol PVC
Production process: Single rotational moulding process

Bow Fenders by OCEAN, as the name suggests, have been designed in order to **protect the bow of your boat**. This new boat fender series by OCEAN is the best solution in terms of price and convenience.

These fenders are produced in two different sizes in order to fit all different boats, as well as in blue and white colour with **UV resistant material** in order to avoid fading under the sun.

They have three eyes for **easy and safe installation**, and for making sure that they will stay in place. The simple valve of this boat fender offers convenient inflation and maximum protection at the same time.

Suitable for

CH Series of Centre Hole Fenders distinguishes for its **multiple use** since these fenders are designed for **horizontal and vertical application** to any small to medium sized boat.

The CH Series, introduced by OCEAN, is the point when **simplicity** and **elegance** become one, with the **high gloss finish** giving you the ultimate touch of style.

In addition, these fenders are one-piece made (no parts are attached together to form the finalised fender), resulting in consistent wall thickness. As all OCEAN fenders, these are made of **Plastisol PVC** material, through **rotational moulding process**.

The simple valve of the fender offers convenient inflation and maximum protection at the same time.

CH Boat Fenders are accompanied with white rope in order to make your life easier!

Suitable for

OCEAN Solid Fenders

The Solid Fenders range is what distinguishes the brand from everyone else.

These unique and superior quality products are what sets OCEAN Fenders a step above the rest.

OCEAN is the only manufacturer that can provide you with these exclusive Italian designed and patterned fenders, made with flexible integral skin foam technology, which is used only by OCEAN for the production of fenders!

They have the best shock absorption and product life performance than any fender in the market, being the only ones **THAT CANNOT DEFLATE.**

The range includes fenders for all different applications, such as for bow (PVM1 & BLADE) and stern protection (MATCH 60 & MATCH 80) as well as fenders of regular cylindrical type (TYPE A Clip-on Fenders, available in 4 different sizes).

Finally, the fender that sets you above everyone else in the marina & it is a class by itself; our SOLOVELA, as its Italian origin name suggests, it is designed exclusively for sailboats. It refers to the sailboats that wish to be looked upon for their superior taste when it comes to fending.

SOLOVELA Solid Fender serves as a **multipurpose boat fender** and it is the best in its class by offering **optimum shock absorption and lifetime performance**. It is manufactured with **Flexible Integral PU Skin Foam technology**, so it is a boat fender that **cannot deflate**. In addition it has remarkable **durability** having been **tested under the pressure of 12 tons per dm²**.

The fender's wide surface area ensures a better distribution of the load and reduction of the specific pressure per cm². **SOLOVELA Solid Fender** stands out for its **innovative shape and exclusive design**, specifically for **sailboats**, which combines **ergonomy and protection**. By offering very easy fitting on the sail boat's lifeline and requiring no stowage while **sailing**, it's always in place and ready to use. It remains steady on the lifeline even with strong wind, without having to worry about being dropped into the sea.

You can also use **SOLOVELA** as a **boarding step** or as a **backrest for the captain during sailing**. **SOLOVELA Solid Fender** is supplied with a navy blue or sand colour, **UV-resistant zip-on cover** and a 3 m white polyester line. The fender has one through hole with nylon fiber reinforced bushes for easy and safe installation with the supplied line.

TYPE A Clip-on Boat Fender is the first and unique solid fender, which clips on the guardrail, and is manufactured with **Flexible Integral PU Skin Foam technology**. It is a boat fender that cannot deflate. It offers the **best shock absorption and lifetime performance** among other boat fenders, providing **exceptional protection**.

It has impressive **durability**, as this **fender cannot deflate** no matter the pressure. It is always in place and ready to use in seconds, and it remains steady even with strong wind. There is no need for fender baskets or other inconvenient stowage and they don't get in the way on the side decks.

It can be used for the protection of the boat both horizontally and vertically. The **TYPE A Clip-on Solid Fender** has one through hole with nylon fiber reinforced bushes for easy and safe installation.

The Dock Fender, as well as the rest of the OCEAN solid fender series, is manufactured with **Flexible Integral PU Skin Foam technology**. It is a dock fender that cannot deflate in any way, under any circumstances. It has the best shock absorption and lifetime performance in class, providing exceptional dock and boat protection. It is the ideal fender for dock fending, fitting perfectly in every dock by placing the clip-ons on the dock and then easily and safely attaching the fender with the dock. Can be also installed on boats that require a permanent means of protection, such as pilot or patrol boats, as they come in very close proximity with other boats due to the nature of their operation.

It is a dock fender that cannot deflate in any way, under any circumstances

OCEAN Fenders Limited Warranty

WHAT THIS WARRANTY COVERS OCEAN warrants its products to be free of defects in workmanship and material under normal use and service and when used for the purposes and under the conditions for which they are intended.

WHAT THIS WARRANTY DOES NOT COVER This warranty does not apply to any problem caused by:

- 1) Unusual conditions such as severe storms, hurricanes, extreme temperatures, UV light breakdown, or ultraviolet rays. Also, the warranty does not cover cosmetic flaws that result from normal wear and tear under ordinary use and do not affect the performance or use of the product.
- 2) Intentional damage by people.
- 3) Cuts, punctures, or exposures to chemicals that degrade or discolor plastics.
- 5) Abuse, neglect, accident, misuse, alteration, unauthorized repair, improper handling, or improper use.
- 4) Improper inflation of any product, including under or over inflation (please refer to inflation guide for maximum inflation values).

Since it is impossible for OCEAN to know the exact purposes for which you acquired the OCEAN product or the uses to which you will put the product, OCEAN shall not be responsible for the selection of the product for its installation and use. While every reasonable effort has been made to insure that you will receive a product that you can use and enjoy, OCEAN does not warrant that the product will meet your requirements.

NO WORDS, ACTIONS, DESCRIPTIONS, MODELS, SAMPLES OR OTHER SELLER CONDUCT WILL CREATE AN EXPRESS WARRANTY BEYOND THE TERMS DESCRIBED HERE.

HOW LONG COVERAGE LASTS The warranty on SOLOVELA, TYPE A, MATCH 60 & 80, PVM 1 & 2, BLADE, SERIES R, H, U, CH & RT, Bow & Dock fenders as well as EASYSTORE PLUS & MAGNUS lasts for a 2-year period from the date of purchase as long as the original purchaser can prove the origin of purchase. This warranty terminates if the original purchaser sells or transfers the product.

WHAT OCEAN WILL DO Obligation under this warranty is limited to repair, replacement, or credit for the defective product at the discretion of OCEAN.

HOW TO GET SERVICE Purchaser should return the defective product to the location where the purchase was made, along with a copy of the original sales receipt documenting the date of purchase and the OCEAN item number, as well as a description of the conditions in which the product was used and the alleged defect **MUST** accompany all warranty claims.

OCEAN shall have the right to inspect said product and Purchaser shall, if requested, return the defective product to OCEAN.

OCEAN is not responsible for postage on the return of defective products. No return merchandise will be accepted without prior authorisation.
